# NCET 2K13

**About the Conference:** With the NCET series of conferences entering its 4<sup>th</sup> year of existence, it is a matter of great pride in continuing the legacy and rich experience of the past 3 editions. The primary goal of this Conference is to offer an excellent opportunity & platform for proactive interaction amongst professionals, academicians, researchers and industrialists to share their knowledge & ideas for achieving focused developments and advancements in their fields. This Conference will help participants to redefine their horizons in recent innovations in technology through technical paper presentations and panel discussions. Eminent scientists and engineers have been invited to deliver special lectures/talks.

**About the Department:** Electronics and Telecommunication Engineering Department was established in the year 1983. The Department offers a full-fledged Under-Graduate program in E&TC Engineering with special emphasis on VLSI, Micro Electronics, Image Processing, Communication, Microwave & RF Engineering and two Post Graduate Programs in Microelectronics and Electronics Communication and Instrumentation. The Vision of the Department is: To Establish high quality engineering programs in partnership with other eminent institutions of National Importance, and train students to become leaders and managers of technology with academic excellence.

**About the College:** Since its inception in 1967, the Goa College of Engineering has always endeavored to produce excellent engineering professionals. The college has been providing expertise to the industry and technology. The courses in the college are approved by All India Council for Technical Education (AICTE) and are affiliated to Goa University.
